

GeoNode

GeoNode is a web-based application and platform for developing Geospatial Information Systems (GIS) and for deploying Spatial Data Infrastructures (SDI).

GeoNode is a geospatial content management system - a platform for the management and publication of geospatial data. It brings together mature and stable open-source software projects under a consistent and easy-to-use interface allowing non-specialised users to share data and create interactive maps.

GeoNode is an official project of the Open Source Geospatial Foundation
